Language and  
Literacy toolkits

**1.42 (SAS)**  
average increase  
in NGST

**7.6 (SAS)**  
average increase  
in NGRT

## Parental Voice

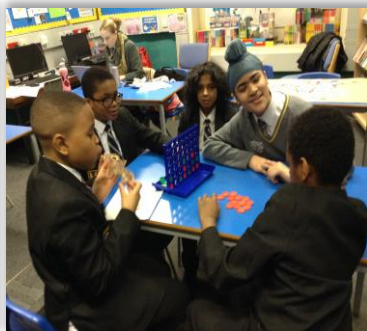

Naia has developed her confidence. She is able to relay what she has learnt on daily basis. She is more willing to read at home. She is very proud of what she has achieved during the placement. I wish to thank the staff for the support they have given to Naia.

I have noticed Mohammed's reading has been improving as he has been reading consistently as he wants to pass the quiz. He tells me how his days have been good and I have not seen any negative changes to him. I appreciate the communication between myself and staff and I thank you for the support.

Firstly, I would like to say a big thankyou to all the hub staff, giving my son this brilliant opportunity. We were so grateful for the support given for my sons learning. Bhupinder, has developed so much confidence in completing his work more independently.

“

*My daughter feels confident and wants to understand more. I am happy my daughter is understanding her work. I am glad that teachers in the STAC are helping my daughter.*

”

“

*My son enjoyed his time at the Hub. Teachers were up to date in his progress. I am very happy with his attendance while at the Hub.*

”

“

*My son's progressed very well. He has picked up a lot of skills to help him in his work. He has started to read more and is taking more pride in his work. He is overall feeling more confident in producing work.*

”
